Agricultural and Mechanical Fair So-

Our citizens have recently undertaken the astablishment of a measure in Greens ville County, deserving their most earnest and sincere interest, and which will redound more to the prosperity of the City and County than any enterprise of like extent, and which is so completely within their own grasp, than of any one project we how can name.

We allude to the Agricultural and Mechanical Fair Society, a list of the subscib-ers to the stock of which we published in a former issue of our paper. As far as the slock is concerned, a very large part of the work is already done, as we believe near five thousand dollars had been subscribed. This society, organized upon a proper basis, and conducted by officers of good capacity, and of proper energy, will effect much good to every interest in which our people are engaged; and as all interests are depend. ent upon agriculture, the stimulus given to that will result in general benefit. With substantial and practical; gentlemen at its head, it will be invaluable in the development of the County. A Fair next fall can be made a grand success, and the lists of home productions exhibited at it will cause our people to be proud. Greenville can produce as large crops of corn, cotton, wheat, oats, eta .- as fine fruits-as splendid animals; and our housewives can make as good butter, preserves, pickles, jams, etc. -and why should not the country know it? But give our people a chance to exhibit the results of their handiwork, and the City will have cance to be proud of the country, and the country of the City.

On Saturday, 14th inst., the Society will meet in the Court House for the purpose of organizing and electing officers, at which there should be a large and full attendance, in order that the organization may be made as perfect as possible. This fis a praiseworthy movement, and the business men of the town should attend in full force and ovince the interest in it that it demands. Remember the day, and attend.

Greenville as a Cotton Market.

The weekly reports of our public weighers of cotton, is the best indication that we can give of the fact that Greenville has assumed the proportions of a very respectable cotton market. We believe that, since the opening of the season, the sales here will average as large, if not larger, than any other place above Columbia, excepting one. For many miles around, especially in the direction of Laurens, Anderson and Pickens, the cotton producers seek Greenville as the place for a market, and this is growing larger and more important every year. The result is, in the language of a citizen who formerly hauled his cotton below, "Greenville begins to look like Augusta." At times Main Street, for a considerable distance is almost bleckaded with the fleecy staple. This condition of things extends in a measure also to Pendleton and Buncombe Streets. It will thus be seen that ours is no menn city.

for their liberality in the price they pay for cotton. Their rates are nearly always within one cent of those quoted in Charleston, and sometimes even less. At the present time, the ruling figures here are 171 cents and it will be seen by referring to the Charleston quotations, that it is bringing but 184 cents there.

We would encourage the bringing of cotton here, because we know our farmers will not be able to do better anywhere else ; besides, ss our merchants keep very full stocks of goods, they can purchase their supplies of dry goods and groceries more satisfactorily to themselves and at lower rates than can be done at smaller places where indifferent stocks are offered.

Taxation.

A reporter of the Charleston Courier recently had a conversation with Gov. Moses, and the following facts connected with the subject of taxation elicited :.

The Governor is reported as saying that the tax this year will not be less than fourteen or fifteen mills on the dollar; five mills for deficiencies, five mills for current expenses, two mills for schools, and three mills for county purposes.

Minister to Russia.

President GRANT has nominated Hon. JAMES L. ORR, Esvoy Extraordinary and Minister Plenipotentiary, to St. Petersburg, and will no doubt be confirmed by the Sen This is a first class mission, with salary of five or six thousand dollars, and large outfit. Judge ORR would no doubt discharge the duties of this high position with credit to himself, and reflect honor upon the Government he represents.

THE House DISEASE .- The Epizoutic has prevailed in Greenville, and is still here, but knowing that it was an endemic and not an epidemie, we refrained from saying too much about it, feeling that among those not informed as to the nature of the disease, it might cause unnecessary excitement. love, and she truely lived for others. She will be greatly missed in her family, in society and in the Church; and it will be long before her place can be adequately filled in either. But we weep her loss as they who have hope, "for if we believe that eo, which sleep in Jesus, will God bring with Him.

Bottles Full of Beauty

Ladies, if you would have beauty by the bottle-full, all you have to do is to purchase Hagan's Magnolia Balm. That peerless beautifier of the complexion not only heightens natural charms, but renders even the plainest countenance exceedingly attractive. It recalls to the pallid check the rosy tinge of health, removes pimples, blotches, roughness, sallowness and other blemishes, and imparts to the skin a most delicate fairness and softness. It smooths the farrows caused by time or care, and gives face, neck and arms the plump and engaging appearance of youthful beauty. All this is accomplished by the most natural means, viz: by gently and naturally stimulating the circulation in the capillary blood vessels. Besides being the most effectu-al aid to beauty known to modern science.
